

**KID
NATION**
LESSONS

Objective

**GETTING
EXCITED
TO LEARN
ABOUT SCIENCE**

Intro

What are
some things
you learn in a
science class?

Video

SCIENCE

Activity

Students
fill out
attached
worksheet
individually

Discussion

Regroup and
discuss the first
four questions
together. Then
have students
explore the final
question in pairs.

Takeaway

**STUDYING
SCIENCE TEACHES
YOU ALL
ABOUT THE
WORLD
AROUND YOU**

IT'S ALIVE!

OR IS IT?

Write some examples under each heading to show your understanding:

Living	Non living	Once Living

SCIENCE

DISCUSSION QUESTIONS

QUESTION 1

What are some things we can study in science?

QUESTION 2

What can we do when we do not understand something?

QUESTION 3

What's a question you have about the world around you?

QUESTION 4

What can you learn from going on a walk?

LET'S DISCUSS!

Turn to a classmate or ask a friend. Have you ever had a question about the world that you did not know the answer to? What did you do to find the answer?
